REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "It is the hospital's position that the hospitalization was an emergency as defined pursuant to the Acute Care Hospital Fee guideline. Further, the hospital's UB92 is coded as trauma with ICD 825.0. Liberty Mutual issued an underpayment of \$6,384.33 as a fair and reasonable reimbursement for trauma admit. However, a reimbursement of less than 25% of billed charges is not fair under any managed care arrangement. It is the hospital's position that the patient required emergency medical treatment to resolve his complicated medical condition. Because there is no certainty or predictability as to what a patient's needs will be in any given emergency admit, the cost of providing necessary care and treatment cannot be predicted with any degree of certainty. Therefore, the hospital is entitled to additional reimbursement of \$29,605.60."

Amount in Dispute: \$29,605.60

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The provider billed ICD-9 : 802.50 - Fracture of calcaneus (closed). This diagnosis represents a closed heel fracture. Though the diagnosis code is between the range of what is considered trauma under the TWCC guidelines (800.0-959.50), the following should be noted: The admission type on the UB04 (Box 14) is 1. If this was a trauma admission, the admission type on the UB-04 would be 5. There are no Trauma revenue codes billed indicating that no trauma services were activated. Trauma codes include revenue codes 0681 through 0684 and 0689. The absence of billed 06 revenue codes further indicates that no trauma activation had occurred and that no trauma series were performed. In addition, there is no evidence in the medical documentation that key personnel responded to triage information from pre hospital caregivers in advance of this claimant's arrival. Nothing in the medical record or billed by the provider indicates that this was anything but a straight forward uncomplicated hospitalization.."

Response Submitted by: Liberty Mutual, 2875 Browns Bridge Road, Gainesville, GA 30504

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
August 1, 2007 through August 6, 2007	Inpatient Services	\$29,605.60	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.401 sets out the fee guideline for acute care inpatient hospital services.
3. 28 Texas Administrative Code §134.1 provides for fair and reasonable reimbursement of health care in the absence of an applicable fee guideline.
4. Texas Labor Code §413.011 sets forth provisions regarding reimbursement policies and guidelines.
5. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 42, Z710 – The charge for this procedure exceeds the fee schedule allowance.
 - 150, Z652 – Recommendation of payment has been based on a procedure code which best describes services rendered.
 - W10, Z711 – The charge for this procedure exceeds the customary charges by other providers for this service.
 - Z782 – Payment reduced due to lack of wholesale invoice.

Findings

1. This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of former 28 Texas Administrative Code §134.401(c)(5)(A), which requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate. Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 825.0. The Division therefore determines that this inpatient admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
2. Texas Administrative Code §134.1, effective May 2, 2006, 31 *Texas Register* 3561, requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
3. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
4. 28 Texas Administrative Code §133.307(c)(2)(G), effective May 25, 2008, 33 *Texas Register* 3954, applicable to requests filed on or after May 25, 2008, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
 - The requestor seeks full reimbursement of billed charges based upon "It is the hospital's position that the patient required emergency medical treatment to resolve his complicated medical condition. Because there is no certainty or predictability as to what a patient's needs will be in any given emergency admit, the cost of providing necessary care and treatment cannot be predicted with any degree of certainty. Therefore, the hospital is entitled to additional reimbursement of \$29,605.60."
 - The requestor did not provide documentation to demonstrate how it determined that full reimbursement of billed charges was fair and reasonable.
 - Documentation of the amount of reimbursement received for these same or similar services was not presented for review.
 - The requestor did not provide documentation to demonstrate how it determined its usual and customary charges for the disputed services.

- The Division has previously found that “hospital charges are not a valid indicator of a hospital’s costs of providing services nor of what is being paid by other payors,” as stated in the adoption preamble to the Division’s former *Acute Care Inpatient Hospital Fee Guideline*, 22 *Texas Register* 6276. It further states that “Alternative methods of reimbursement were considered... and rejected because they use hospital charges as their basis and allow the hospitals to affect their reimbursement by inflating their charges...” 22 *Texas Register* 6268-6269. Therefore, the use of a hospital’s “usual and customary” charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
- The requestor did not submit documentation to support that payment of the amount sought is a fair and reasonable rate of reimbursement for the services in this dispute.
- The requestor did not submit nationally recognized published studies or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
- The requestor did not support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the services in dispute.
